

INNOVATIVE DRILLING TOOLS

Established in 1982 and fast approaching 30 years
Hard Metals Australia enjoys the reputation of being

- One of the largest stockist of Tungsten Carbide Blanks in Australia.
- Designing and marketing the best PDC hole openers in the market.
- Stocking a large range of standard drilling and weld on tungsten tools for custom builds.
- Offering a reliable refurbishment service for used tooling.

Drilling is Hard Metals Australia's passion and we are always looking for ways to advance your productivity. If you have an idea that you want to get engineered or a drilling problem, then Hard Metals Australia is most likely to be able to provide you with a cost effective solution.
