

**AVAILABLE
SIZES:
3-1/2" - 24"**

Gatorback

GREAT FOR:

- Soft formation
- Medium formation
- Overburden
- Shale
- Sand
- Tills
- Clay
- Coal
- Limestone
- Sandstone
- Sedimentary Rocks

IDEAL FOR:

- Environmental drilling
- Waterwell drilling
- Mining drilling
- Geothermal drilling

BENEFITS:

- Low cost
- No lubrication required
- Rotation speed required is slow or medium, good for drilling equipment
- No cluttering will occur, no cleaning required
- Longer lifespan than conventional bits
- High rate of penetration

FEEDBACK:

"Excellent in weak sediments, clays and sands. Outperformed expectations, we'll keep using it." -Tom @ Geodrill Australia
